

# Large Recording Photo Album

OWNER'S MANUAL — Please read before using this equipment.

Your RadioShack Large Recording Photo Album uses the latest digital recording technology to let you record new messages as many times as you like, without any tapes to change. You can record and play back up to 20 messages, one for each page of photographs.

## INSTALLING BATTERIES

Your Large Recording Album uses two AAA batteries (not supplied) for power. For the longest life and best performance, we recommend alkaline batteries, available at your RadioShack store.

### Cautions:

- Use only fresh batteries of the required size and recommended type.
- Do not mix old and new batteries, different types of batteries (standard, alkaline, or rechargeable), or rechargeable batteries of different capacities.

Follow these steps to install batteries.

1. Slide the battery compartment cover in the direction of the arrow to remove it.
2. Place the batteries in the compartment as indicated by the battery icons to the right of the battery door.
3. Replace the cover.

When the album's sound weakens or the display dims, replace the batteries.

**Warning:** Dispose of old batteries promptly and properly. Do not burn or bury them.

**Caution:** If you do not plan to use the album for a month or more, remove the batteries. Batteries can leak chemicals that can destroy electronic parts.

## LOADING THE PICTURES

The Large Recording Photo Album contains 20 pages of adhesive paper with transparent covers. Use your imagination to decorate and arrange photos on the adhesive paper.

1. Open the album and turn to the desired page.
2. Lift up the transparent cover from the position marked OPEN.
3. Arrange the photos on the adhesive paper, then seal with the transparent cover to protect the photos.

**Note:** The page number corresponds to the recorded message number. Before recording, make sure the message number matches the photo page number.

## RECORDING A MESSAGE

The Large Recording Photo Album lets you record up to 20 memory messages (01–20) for the pictures on the album pages. For each page, you can record one message up to 9 seconds.

1. Press **POWER**. The POWER indicator lights and - - appears.
2. Slide **LOCK/REC** to **REC**.
3. Open the album to the desired page, then repeatedly press << or >> until the desired number appears on the display. For example, if you want to record message for Page 5, repeatedly press << or >> until 05 appears.
4. To begin recording, press **REC** and **PLAY** simultaneously. The REC indicator lights and the recorder beeps once.
5. Speak into the microphone below the power button in a normal voice. After 9 seconds, the recorder automatically stops recording and beeps twice.
6. To stop recording sooner, press **REC** again. The recorder beeps and the REC indicator turns off.

### Notes:

- To prevent accidental erasure after recording, slide **LOCK/REC** back to **LOCK**.
- To conserve the battery power when you are not using the recorder, press **POWER** to turn off the power.

## PLAYING THE MESSAGE

1. Press **POWER**. The POWER indicator lights and - - appears.
2. Open the album to the desired page number, then repeatedly press << or >> to search for the corresponding message number.
3. Press **PLAY** to play the message.
4. To stop play before the message is over, press **PLAY** again. The recorder beeps once. To resume playing, press **PLAY** again.

**Note:** The message starts over from the beginning, not the point where it was stopped.

## CLEARING ALL MESSAGES

**Caution:** This will permanently erase all of the recorded messages at once.

1. Set **LOCK/REC** to **REC**.
2. Hold down << and >> simultaneously. The REC indicator lights.
3. While still holding down << and >>, hold down **REC** for about 3 seconds. The album beeps twice when the memory is cleared.
